

EBU1

BACKUP POWER SUPPLY WITH BATTERY

Backup Power Supply EBU1 for any electronic equipment, where uninterrupted power supply is required. Has an output for failure indication. Charges Ni-Mh 9V 250mAh battery which is already installed in the unit.

FEATURES

- Provides power for low power electronic equipment in case of main power supply failure
- Open collector output for indication of mains failure
- Ni-Mh rechargeable battery included
- Plastic enclosure for easy fixing to the wall or other surface
- 5 x 15cm long wires included for easy installation

APPLICATIONS

- Any alarm detectors
- ESIM021/022 , ESIM251/252, ESIM110/120, EW1B, ELAN2, ET082 power back-up
- Any electronic equipment

TECHNICAL SPECIFICATIONS

Power supply 11,5-30 VDC

Output power supply while operating on battery 6,5-10,5 VDC max 0,5A

Battery type Ni-MH 9V 250mAh

Output for external power supply indication Open collector

Dimensions 80x36x21 mm
